A PATENT has recently been granted for a machine for making and dressing button-holes.

Mr. THEODORE TILTON writes to the editor of the Phrenological Journal that he (Tilton) has as yet done nothing worth mentioning.

Ir was announced by the Western press a few days ago that Brevet Brigadier-General H. H. Heath, Colonel of the Seventh Iowa Cavalry, had been mustered out of service dishonorably. Upon examination of the case, General Grant has caused that order to be revoked, the charges against this meritorious officer having been fully and satisfactorily explained.

Ir is announced that the official information of the intention of the Emperor of France to withdraw his troops from Mexico has created a profound sensation in that country. The Liberals are rejoicing greatly over the matter, but the adherents of Maxamilian are downcast and fear that it forbodes the downfall of his empire. There are rumors afloat in the city of Mexico that Maxamilian contemplates abdication before the cutire French contingent is withdrawn; but upon this subject nothing authentic appears to be known.

THE Harrisburg Telegraph speaks of "the reports of General Steadman in regard to the Memphis riots, giving detailed information of that brutal transaction." General Steadman has not been in Memphis before nor since the riots; knows nothing about them; has made no reports in relation to them; and for months has had his entire attention and time taken up with investigating and reporting the "brutal transactions" of the Freedmen's Bureau agents in Virginia, and North and South Caro-
